

Using the horn scores for Enough is Enough

We have provided the full scores for the original composition of the piece although we are aware that this may not be suitable for all groups.

If you are looking for a short section to learn with your group, the main horn section feature in the tune lasts for just 16 bars and comes at **letter E** (bar 98) until **letter F** (bar 114). This is then repeated (after a drum break at letter F) from letter G to the end.
